

Kent Fitness League

2009/2010

**An annual cross-country league competed for between
October and March**

THIS IS TO CERTIFY THAT

Peter Butler

(Dartford RR)

SUCCESSFULLY COMPLETED 6 RACES AS FOLLOWS

Event Date	Venue	Pos	Out of	Score	Time	Rating
8th November 2009	Swanley Park	80	294	M5 - 7	34:11	73.13
22nd November 2009	Nurstead Court	129	279	50 - 7	42:16	54.12
29th November 2009	Blean Woods	76	239	M5 - 7	36:12	68.62
3rd January 2010	Oxleas Wood	86	225	50 - 7	40:08	62.22
24th January 2010	Betteshanger Park	62	195	50 - 3	33:56	68.72
21st February 2010	Knole Park	62	192	50 - 5	40:32	68.23

Overall Rating: 68.18% Overall Position: 56th (out of 458)

In the table above, Score indicates whether the runner scored for her/his club in the race, with "NS" indicating that the runner did not score. There are seven scoring positions for men and three for women. One of the male scorers has to be a veteran over 50 ("50" in the score column) and one has to be over 40 ("40"). One of the female scorers has to be over 35 ("35") or, prior to the 2004-5 season, over 40. Scorers other than veterans are indicated by the scoring slot they are in e.g. M4 indicates the fourth male non-veteran scoring slot. The figure after the dash is the position of the runner amongst the scorers so "40 - 5" indicates that the runner was the over 40 scorer and the fifth male to score for the club in that race.

Rating is the percentage of runners beaten in the league race, taking into account a notional "extra" runner. For example, if a male runner finishes 101 out of 200 (with 200 being the total men in the league race) then the calculation is $(201 - 101) / 200 = 0.5$ or 50%. The overall rating is calculated as the average of the best five ratings.
